OUTSTANDING CHOICES

Lips

The Lip tattoos are designed to define lips, not to create volume or puffiness, it will give you the appearance of a full lip. Pigmentations can be inserted to obtain more natural lip color or more vibrant colors, retouch time frame varies depend on the desired colors.

Hair Strokes

The Hair Strokes Technique is often considered a type of permanent makeup, however, its concept is different: the ink is deposited with manual pen with blade which is 2 times thinner than average human hair and that allows technicians to draw crisp, thin and natural looking hairs.

Powdered

The Powdered fill method involves the application of thousands of tiny little dots of pigment, inserted into the skin, gradually building up a colour and a defined shape. Hair Strokes method can be done on top of the Powdered method for definitions.

Outstanding Training Center

With the emphasis on Education, our goal is give each and every one of our members the best tools and educations for a successful career as a permanent makeup artist.

AREOLA

乳晕

Eyeliners

Permanent eyeliner is placed in the lash line, which enhances and defines the beauty of the eyes. The technique is a very natural look and will make lashes appear thicker when not wearing mascara. It opens the eyes and makes them “pop”.

Areola

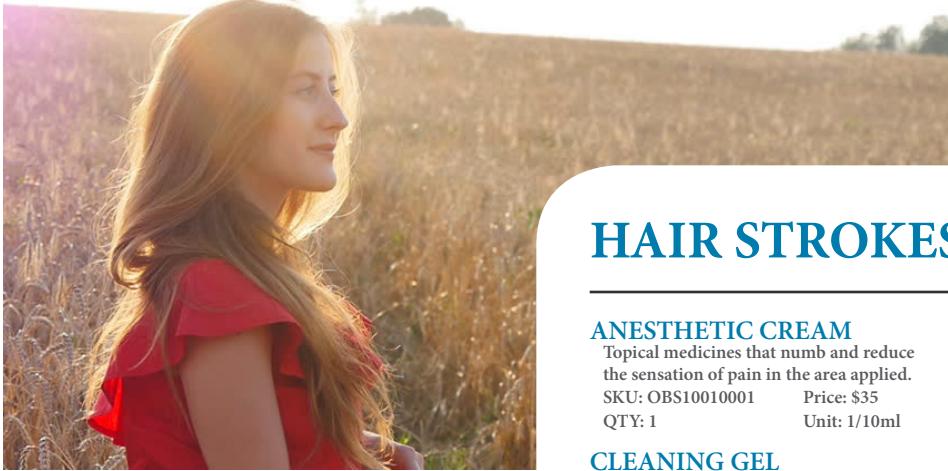

The Areola repigmentation is an advanced procedure corrects the color, size and shape of the nipple. This procedures can use pigments and tints to create an illusion of nipple protrusion with a realistic areola on a breast mound without surgery.

HAIRLINES

美发

Hairlines

Hairline pigmentation technique helps re-create hairline stroke by stroke, rebuilding hairline, creating the appearance of volume, reclaiming what has been lost and giving the effect of lush, healthy hair.

HAIR STROKES SEMINAR KIT

ANESTHETIC CREAM

Topical medicines that numb and reduce the sensation of pain in the area applied.
